

WORLD SOCIETY OF OPHTHALMIC PLASTIC
RECONSTRUCTIVE & AESTHETIC SURGERY

WSOPRAS

2025

10 - 13 APRIL 2025, İSTANBUL

Four Seasons Hotel Bosphorus and Convention Center

SCIENTIFIC PROGRAM

www.wsopras2025.org

APRIL 10th, 2025 | DAY 1

08.00 - 08.15 Welcome Message

08.15 - 09.15 Eyelid 1: Eyelid Oncology - Controversies
Session Chairs: *Michèle Beaconsfield, Dinesh Selva*

Reconstruction of Large Upper Eyelid Defect - Video session

Large upper eyelid reconstruction - Reverse modified Hughes procedure
Wonkyung Viviana Cho

Large upper eyelid reconstruction - Other source
Laura Hughes

Panel Q&A discussion

Advanced Eyelid Tumors - Panel discussion

Advanced eyelid basal cell carcinoma: When is medical treatment an option?
Rebecca Ford

Treatment of large LM - Imiquimod/radiation
Hakan Demirci

Advanced squamous cell carcinoma
Bita Esmaeli

Sentinel Lymph Node Biopsy in Ocular Adnexal Melanoma - A Brazilian Experience
Silvia Andrade Carvalho Rodrigues

Panel Q&A discussion

09.15 - 09.45 Eyelid 2: Treatment of Cicatricial Entropion in Conjunctival Disease
Session Chairs: *Gerd Geerling, Saul Rajak*

Panel discussion

Anterior lamellar recession and MM /Tarsal patch grafting
Raman Malhotra

PLTR and BLTR
Saul Rajak

Entropion - Guidelines to prevent it in OCP
Gerd Geerling

OCP - Conjunctiva sparing surgery
Rwituja Thomas

Panel Q&A discussion

09.45 - 10.30 Aesthetics 1: Upper Eyelid - Debates
Session Chairs: *Audrey Looi, Karim Punja*

Asian Eyelid Nuances: Battle of Surgical Techniques

Small-incision vs full-incision surgery
Chai Teck Choo

Epicanthal fold - simple vs flap technique
Mike Yen

Epicanthal fold - flap vs simple technique
Elaine Chee

Post operative volume complication
Rui Jin

Panel Q&A discussion

Tarsal vs levator fixation: Pearls for crease formation
Alice Goh

Orbicularis vs skin fixation, suture type: Pearls for crease formation
Lin Lyu

Medial fat debulking - should this be performed?
Stephanie Young

Revision East Asian blepharoplasty challenges
Vanessa Naseem Neoh

Panel Q&A discussion

10.30 - 11.00 Coffee Break

11.00 - 11.45 Lacrimal 1: PANEL DISCUSSION
Session Chairs: *Lelio Baldeschi, Ivan Haefliger*

Endoscopic endonasal DCR; The new gold standard?
Nikos Trakos

External DCR; The end of an era?
Yonca Özkan Arat

Endoluminal dacryoplasty; The future of lacrimal surgery?
Rey Javate

Endonasal laser DCR; Is it effective?
Mohammad Moin

Revision DCR
Daniel Ezra

Panel Q&A discussion

11.45 - 12.30 Orbit 1, TED-1: Shifts & Directions in Medical Treatment - Debates
Session Chairs: *Jimmy Uddin, Lelio Baldeschi*

Medical Treatment in the Inactive Phase?

Medical treatment works in chronic phase

Raymond Douglas

Medical treatment does not work in chronic phase

Sandy Zhang Nunes

Combined immunosuppression/medical decompression

Kelvin Chong

Panel Q&A discussion

Role of TSHR Antibodies in Management of TED

TSH receptor antibodies help in steering the treatment!

Anja Eckstein

Role of TSH receptor antibody tests in formulation of treatment is a myth!

Andrea Kossler

Panel Q&A discussion

12.30 - 12.38 Viridian Sponsored Talk

Therapeutics TED clinical program update

Peerooz Saeed

12.40 - 13.40 Lunch

13.40 - 14.40 Aesthetics 2: Upper Eyelid - Debates
Session Chairs: *Rob Fante, Ahmed Ben Said*

Blepharoplasty in the TED Patient

Upper lid malposition and blepharoplasty: Anterior approach

Miguel Gonzales-Candial

Upper lid malposition: Posterior approach

Milind Naik

Lower lid malposition management option 1

Fernando Procianoy

Lower lid malposition management option 2

İlke Bahçeci Şimşek

Panel Q&A discussion

Surgical Correction of Asymmetrical Upper Eyelid Volume

Managing asymmetrical upper eyelid volume: Differential skin crease placement

Yvette Santiago Gatmaitan

Managing asymmetrical upper eyelid volume: Orbicularis resection vs retention

Tammy Osaki

Managing asymmetrical upper eyelid volume: Fat release, repositioning, fat graft

Cecilia Rodríguez Luna

Managing asymmetrical upper eyelid volume: Browplasty, subbrow blepharoplasty

Audrey Looi

Panel Q&A discussion

14.40 - 15.10 Aesthetics 3: Managing Aesthetic Surgery Complications: Cases and Panel Discussion
Session Chairs: *Santiago-Ortiz Perez, Mahmoud Al Salem*

Intro

Case 1: Postblepharoplasty lower eyelid retraction

Mikhail Kataev

Panel Q&A discussion

Case 2: Fat granulomas after repositioning or fat transfer

Cameron Nabavi

Panel Q&A discussion

Case 3: Management of recurrent lower eyelid oedema after hyaluronic acid filler injection

Reili Rebane

Panel Q&A discussion

Case 4: Surgical debulking of retained filler after hyaluronidase

Jeremiah Tao

Panel Q&A discussion

15.10 - 15.40 Coffee Break

15.40 - 16.25 Orbit 2: Challenging Situations in Orbit: Case Presentations and Panel Discussion
Session Chairs: *James Garrity, Bob Kersten*

Case 1: Challenging recurrent orbital tumor

Mark Lucareli

Panel Q&A discussion

Case 2: Orbital apex syndrome in a patient with orbital tuberculosis

Honey Teo

Panel Q&A discussion

Case 3: Acute proptosis in a young female

Tamer Gawdat

Panel Q&A discussion

Case 4: Core needle biopsy for unaccessible orbital tumours

Mohammed el Belhadji

Panel Q&A discussion

Case 5: Orbital metastasis: A diagnostic and management conundrum

Akshay Nair

Panel Q&A discussion

16.25 - 17.10 Orbit 3: Challenging Situations in Orbit Necrotizing Fasciitis and Sockets
Session Chairs: *Hatem Tawfik, Christoph Hintschich*

Case 1: Necrotizing fasciitis

Saj Ataullah

Case 2: Necrotizing fasciitis

Louise Mawn

Panel Q&A discussion

Recurrent socket reconstruction failure 1

Zurina Zainal Abidin

Recurrent socket reconstruction failure 2

Dyonne Hartong

Recurrent socket reconstruction failure 3

Yvonne Chung

Panel Q&A discussion

17.10 - 17.55 Eyelid 3: Congenital Ptosis with Poor Levator Function – Controversies/Debates

Session Chairs: *Ramón Medel, Irfan Jeeva*

Suspension: Silicone sling

Mpopi Lenake

Elimination of upper eyelid ptosis using allogenic suture material

Dilshodkhuja Khodjaev

Panel Q&A discussion

Suspension: Frontalis flaps

Ivana Cardoso Pereira

Combined frontalis flap and whitnall sling

Mehdi Fendri

Panel Q&A discussion

Muscle technique: Is conjoint fascial sheath suspension the new thing?

Ming Lin

Panel Q&A discussion

APRIL 11th, 2025 | DAY 2

07.15 - 08.00 Coffee with Experts

Endoscopy & microendoscopy in relation to the anatomy of the lacrimal drainage system

Hirohiko Kakizaki, Rey Javate

Optimizing ptosis outcomes

Mike Yen, Aoife Naughton

Red flags in cosmetic surgery

Stephanie Young, Miguel Gonzales-Candial

Orbital lymphoma

Tim Sullivan, Honglei Liu

Anophthalmia / microphthalmia

Dyonne Hartong, Hee Yong Choi

08.00 - 09.00 Eye Openers

Moderators: *Wendy Lee, Stijn W. van der Meeren*

Oblique periocular lifting - a combination of techniques

Tiago Ortiz

Triamcinolone depot mitigates post-blepharoplasty edema: A double-blind split-face RCT

Nasser Karimi

Is it necessary and sufficient to release the conjoint tendon during eyebrow lifting?

Alomi O. Parikh

Restoring sight and smile: Combined corneal neurotization and facial reanimation surgery

Svati Bansal

The relationship between involutional ectropion and inflammatory disorders of the eyelids and ocular surface: Insights from a large-scale national study

Ahmad Mansour

Brachytherapy with Ru-106 Episcleral Plaques for periocular malignancies

Artur Klett

Secondary intention healing following Mohs micrographic surgery for periocular skin cancer

Felicity Allen

Composite graft using sandwich technique in reconstruction of eyelid deformities

Neelam Pushker

Development a web-based prognostic nomogram for patients with eyelid sebaceous carcinoma: A study based on SEER and a Chinese validation cohort

Lan Ma

Conjunctival mullerectomy with suture or suturless

Zeliha Karademir

Retrospective study on management of traumatic ptosis - experience in tertiary eye care centre

Sindhuja Murugesan

Long-term outcomes of lateral tarsoconjunctival suspension flap treatment of lower eyelid retraction in a large series

Teresa H Chen

Disparity in periocular manifestations between hemifacial spasm and post-paralytic facial

Adel Alsuhaibani

Q&A discussion

09.00 - 09.45 Lacrimal 2: Challenging Cases

Session Chairs: *Suat Hayri Uğurbaş, Pallavi Singh*

Congenital abnormalities of the lacrimal system

Hachemi Nezzar

Panel Q&A discussion

Conventional approach for complex cases of NLDO

Hela Kamoun

Panel Q&A discussion

Pediatric DCR

Sri Gore

Panel Q&A discussion

Which surgery for canalicular obstruction?

Francesco Quaranta Leoni

Panel Q&A discussion

Novel interstitial brachytherapy treatment for lacrimal sac squamous cell carcinoma

Kadi Palumaa

Panel Q&A discussion

09.45 - 10.30 What's New and Hot for All Oculoplastics

Session Chairs: *Francesco Quaranta Leoni, Bernard Chang*

Facial assessment with artificial intelligence

Swan Kang

3D Oculoplasty surgery

Mehdi Fendri

Augmented reality surgery

Bobby Korn

Panel Q&A discussion

Attachment of smartphone magnetic neck holder to an operating microscope for surgical videos

Armağan Özgür

Next-Gen filming: 3D printed camera holder for stabilization

Paul Phelps

Panel Q&A discussion

10.30 - 11.00 Coffee Break & FCI Sponsored Talk

Speakers: *Jorge Corona, Francesco Quaranta Leoni, Mehdi Fendri*

Endoscopic DCR using FCI Nunchaku®

Jorge Corona

Rationale for StopLoss® Jones Tube in canalicular obstructions

Francesco Quaranta Leoni

Balloon Dacryoplasty and intubation for nasolacrimal duct obstruction

Mehdi Fendri

11.00 - 11.45 Eyelid 4: Post-traumatic Complex/ Recurrent Eyelid Retraction
Session chairs: Gangadhara Sundar, Uli Schaudig

Post-traumatic retraction: Middle lamella management
Priti Udhay

Post-traumatic retraction: Anterior lamella management
Altuğ Çetinkaya

Retraction after floor fracture repair
Yasser Khan

Panel Q&A discussion

Free flaps
Dongmei Li

Umbilical amniotic membrane
Mary Stefanyszyn

Panel Q&A discussion

11.45 - 12.30 Orbit 4, TED 2: Orbital Surgery - Controversies/Debates
Session Chairs: *Michael Burnstine, Milind Naik*

Endoscopic vs Trans-Caruncular Medial Wall Decompression

Endonasal endoscopic orbital decompression
Farzad Pakdel

Trans-caruncular orbital decompression
Diego Strianese

Panel Q&A discussion

Balanced Decompression vs Medial and Floor Decompression

Balanced orbital decompression
Robert A. Goldberg

Medial and floor orbital decompression
Tim Sullivan

Panel Q&A discussion

Fat vs Bone Decompression

Fat decompression
Honglei Liu

Bone decompression
Peerooz Saeed

Panel Q&A discussion

12.30 - 13.30 Lunch & Amgen Sponsored Industry Symposium
Speakers: *Bobby Korn, Jimmy Uddin*

13.30 - 14.15 Orbit 5: Orbital Tumors: Controversies/Debates
Session Chairs: *Sachin Salvi, Bitá Esmaeli*

Lacrimal Gland Carcinomas

Challenges in adenoid cystic carcinoma pathology and genetics for clinicians
Anita Chan Sook Yee

Globe sparing tumor resection + radiotherapy in adenoid cystic carcinoma
Kaveh Vahdani

Early radical surgery: Exenteration
James Garitty

Panel Q&A discussion

Basal Cell Carcinoma with Orbital Invasion: Targeted Therapy or Surgery - Debate

Tumor resection
Dinesh Selva

Targeted therapy
Bitá Esmaeli

Panel Q&A discussion

14.15 - 15.00 E-Poster Oral Session
Moderators: *Senthil Nathan, Rachel Kalmann, Kenneth Morgenstern, Linda Guakil, Cameron Nabavi, Yvette Santiago, Joon Kim*

MONITOR 1 Aesthetics 1
Moderator: *Kenneth Morgenstern*

Browpepxy, does it work?
Qasim Nasser

Biorejuvenation of the periocular region: A combination of plasma and injective approach
Sandra Brigitte Weinfurter

Use of NCTF135HA and exosomes in oculoplastics
Vianhi López Rioja

Interventions for reducing bleeding and swelling in blepharoplasty: A systematic review
Anas Alamoudi

Ocular vasoconstrictors: Does mechanism of action make a difference?
Nikolaos Trakos

Step-by-step management of botched eyelid surgery in the setting of fat grafts and fillersurgery
Altuğ Çetinkaya

Scar management: The new and old me
Ximena Arze

Is blepharoplasty more than a cosmetic procedure? Quantitative analysis of cutaneous changes and clinical effects in elderly patients with dermatochalasis
Pelin Kiyat

The role of eyebrow tattoo position in histological and ultrasonographic changes of the upper eyelid: A follow-up study
Mansooreh Jamshidian Tehrani

MONITOR 2 **Eyelid #1 - Miscellaneous**
Moderator: *Linda Guakil*

Periocular reconstruction: Do cosmetic considerations matter?

Krishna Manasvini Sukhavasi

Blepharospasm management in myotonic chondrodystrophy: A systematic review

Rachid Bouchikh El Jarroudi

Evaluation of quality of life after common eyelid surgeries using the new 5-factor GBI

Zehra Tunçbilek

A 20-year survey of atypical mycobacterial infections in an academic oculofacial practice

Eman Al-Sharif

TXA in oculoplastic surgery: A systematic review and meta-analysis of randomized clinical trials

Suzana Matayoshi

Management of cicatricial ectropion in lamellar ichthyosis: Exploring alternative surgical approaches

Nahia Dib El Jalbout

Hidden in plain sight: Eyelid tumor revealed as eyelid tuberculosis

Dyah Ratri Widyati

Reconstruction of scar inversion of the eyelids with a free flap after a mine-explosive injury

Pavla Ivaniuta

Long-term results of pathogenetically oriented approach to the treatment of involutional eyelid occlusions

Issaliyeva Azhar Askarovna

MONITOR 3 **Eyelid #2- Ptosis**
Moderator: *Senthil Nathan*

Simplified medial canthoplasty combined with frontalis suspension for same-time correction of epicanthus, telecanthus and ptosis in blepharophimosis syndrome

Joana Providencia

Combined frontalis muscle and levator advancement flaps for severe congenital ptosis

Syed Ali Raza Rizvi

Conjoint fascia sheath suspension in pediatric congenital ptosis

Yu-Fang Huang

Unilateral early ptosis correction with frontalis flap using Mersilene 5-0

Tatiana Costa

BPES: What hides under the top of the iceberg?

Svetlana Tronina

A novel width formula for frontalis flap advancement in severe unilateral congenital ptosis

Irfan Kabiruddin Jeeva

Long-term surgical outcomes of levator resection in patients with Marcus-Gunn jaw-winking ptosis

Rawan Althaqib

Muller's muscle conjunctival resection for blepharoptosis in patients with fair levator function

Ece Doğruel

MONITOR 4 Eyelid #3 - Oncology

Moderator: *Cameron Nabavi*

A seed of suspicion, a sprout of doubt

Adriana Kovacova

Systemic neoadjuvant chemotherapy for invasive ocular surface squamous cell carcinoma

Rachna Meel

Association between DII/DOBS and accelerated phenoage with the risk of skin cancer: Mediation analysis in the NHANES

Shiqi Hui

Staged excision of periocular BCC: Getting the 'all clear' first time – does training experience give you the edge?

Basma R Khan

Periocular basal cell carcinoma (BCC): A review of epidemiology and prognostic factors in Taiwan

Fang-Yu Liu

Lurking in the lids: A case series of endocrine mucin-producing sweat gland carcinoma

Namita Mathews

Schwannoma of the lower eyelid resembling a recurrent chalazion in a five-month-old infant

Pauline Andrea Averia Wong

MONITOR 5 Lacrimal

Moderator: *Yvette Santiago*

Ultrasound endonasal dacryocystorhinostomy in the treatment of recurrent dacryocystitis of newborns

Naumov Konstantin G.

Necrotizing canaliculitis: Describing a new entity with its clinical and microbiological aspects

Alanuad Albazei

Pathogenetically based system for preventing and correcting secondary lacrimal duct obstruction after radioiodine therapy

Vasily Yartsev

Practice patterns and outcomes of dacryocystorhinostomy for secondary nasolacrimal duct obstruction

Mohamad Rani Hassoun

Development of a 3D-printed simulator as a teaching tool for endoscopic dacryocystorhinostomy

Angkoon Luangaram

Randomized controlled trial on silicone intubation in endoscopic mechanical dacryocystorhinostomy (SEND): An 11-year outcome report

Karen Chan

Effect of endonasal dacryocystorhinostomy on conjunctival morphology and visual quality

Hidayet Şener

Dacryocystorhinostomy surgery in patients with granulomatosis with polyangiitis

Cornelius Rene

Long-term results of modified external dacryocystorhinostomy

Aidana Iskakbayeva

Comparative analysis of silicone tube intubation versus probing and balloon dilation for congenital nasolacrimal duct obstruction: A systematic review and meta-analysis

Rahaf Alruwaili

MONITOR 6 Orbit#1 TED

Moderator: *Rachel Kalmann*

Ultrasonic osteodestruction in deep lateral wall orbital decompression

Yaroslav O. Grusha

Our experience of deep lateral wall orbital decompression using ultrasonic bone resection

Ganna Lysenko

Comparison of orbital decompression with and without lateral rim anteriorization

Jeremy Tan

Reduced hemorrhage during medial decompression with nasal packing containing vasoconstrictive agent

Anna Wiktorin

The impact of initial clinical and imaging findings on poor visual field recovery in dysthyroid optic neuropathy

Khawlah Alzaben

Deep learning models for thyroid eye disease screening using facial photographs

Amirhossein Aghajani

Investigation of static and dynamic pupillometric parameters in Graves' disease

Zeynep Kaya Orhan

Plasticity and elasticity of the orbit

Mahmoud Al Salem

MONITOR 7 Orbit #2

Moderator: *Joon Kim*

Histopathologic aspects and current management of silent sinus syndrome

Vladimir Sheptulin

Retained metallic orbital foreign body following air gun injury: 6-year follow-up

Nikolitsa Koutropoulou

Intraoperative trochlea reconstruction

Stijn W. van der Meeren

Evaluating the accuracy of artificial intelligence in the diagnosis and management of orbital fractures

Kareem Ibrahim-Bacha

Ophthalmic injuries resulting from a mass casualty event involving explosive pagers

Ramzi Alameddine

Bilateral orbital involvement in a patient with known ovarian Rosai-Dorfman disease

Kübra Şerefoğlu Çabuk

Case series of IgG4-related orbital disease (IgG4-ROD) - clinicopathological spectrum

Hage Angku

IgG4 in adult orbital xanthogranulomatous disease

Ana Duarte

Adult-onset asthma and periocular xanthogranulomas syndrome associated with IgG4-related disease and response to rituximab treatment: A case report and literature review

Nada Almadhi

Amyloid nanofilm-induced surface mineralization of 3D-printed polyetheretherketone scaffolds for in situ orbital bone regeneration and repair

Xiaoming Huang

15.30 - 16.15 Aesthetics 4 : Forehead and Brow Debates
Session Chairs: *Kristin Tarbet, Dan Georgescu*

Forehead Rejuvenation Options

Direct supraciliary is best

Nathalia Kassis

Temporal pretrichial is best

David Samimi

Temporal endoscopic is best

Ramzi Alameddine

Panel Q&A discussion

Subperiosteal endoscopic approach is best

Kenneth Morgenstern

Subcutaneous gliding plane approach is best

Salvatore Pacella

Pretrichial approach is best

Benjamin Burt

Panel Q&A discussion

16.15 - 17.00 Aesthetics 5: Lower Eyelid Debates
Session Chairs: *Bijan Beigi, Michael Migliori*

Transconjunctival Debate

Transconjunctival fat resection

Jorge Corona

Transconjunctival fat repositioning

Tanuj Nakra

Panel Q&A discussion

Transcutaneous Debate

Transcutaneous fat resection or fat pearls, and septal management

Vanessa Neoh

Transcutaneous fat repositioning: Arcuate release/ plane of re-drape

Dan Georgescu

Panel Q&A discussion

The Layers Debate

What to do with excess skin laxity? When is the surgery needed?

Caroline Wilde

What to do with the orbicularis muscle? How can you make the orbicularis your friend?

Robert Fante

What to do with the lateral canthus? Proactive canthal management

Petrina Tan

What to do with the orbital septum? Close or tighten it?

Cameron Nabavi

Panel Q&A discussion

17.05 - 18.00 General Meeting

APRIL 12th, 2025 | DAY 3

07.15 - 08.00 Coffee with Experts

Posterior lamellar graft options

James Garrity, Fiona Jazayeri

Imaging in oculoplastic surgery

Santiago Ortiz, Saul Rajak

Management of scars

Farzad Pakdal, Ximena Arce

Managing fillers in blepharoplasty surgery

Sabrina Shah-Desai, Nathalia Kassis

08.00 - 09.00 Eye Openers

Moderators: *Ana Carolina Victoria, Femida Kherani*

Virtual reality for surgical teaching

Pete Setabutr

Surgical outcomes and management of complications of StopLoss Jones Tube: A single-center study

Hatice Kübra Sönmez

DCR: Is it always the best solution for acute and chronic dacryocystitis?

Jacques Lagier

Characteristics and microbiology profile of eviscerated KPro implanted eyes

Khawlah Alzaben

Highly unusual presentations of ocular tumors

Tayyab Afghani

Tuberculosis in the oculoplasty area: Case series

Delfitri Lutfi

Dermis fat graft as primary orbital implant – outcomes and complications

Anna Schuh

Thyroid eye disease (TED) in the pediatric population: A retrospective study at a tertiary eye care institute

Sneha Bhopatkar

Lacrimal gland volume measurements in normal and thyroid orbitopathy patients using magnetic resonance imaging

Nur Khatib

Invasive orbital fungal infection (aspergillosis): A case report and review of the literature

Al Anood Al Farsi

Does adjuvant radiotherapy prevent recurrence in solitary fibrous tumor?

Rolika Bansal

Outcomes after multidisciplinary treatment for pediatric and adult orbital rhabdomyosarcoma

Nur Khatib

Potential of ultrasonography in assessment of orbital inflammation activity in GPA

Dilyara Ismailova

Q&A discussion

09.00 - 09.45 Aesthetics 6: Midface and Canthal Debates
Session Chairs: *Shubhra Goel, Kenneth Morgenstern*

Midface

Midface best approach #1

John Bareño

Midface best approach #2

Karim Punja

Midface supra vs subperiosteal

Daniel Paez

Panel Q&A discussion

Canthal

Medial epicanthal surgery

Tomoyuki Kashima

Medial canthal tendon surgery

Maryanne Romero

Lateral canthal fixation tips for recurrence (implants, drill holes)

Sean Paul

Panel Q&A discussion

09.45 - 10.30 Eyelid 5: Facial Nerve Palsy
Session Chairs: *Suzana Matayoshi, Cornelius René*

Upper Lid Weight Loading

Pretarsal

Kasturi Bhattacharjee

Supratarsal

Raman Malhotra

Dermofat loading for refractory upper lid implant exposure in patients with facial nerve palsy

Bijan Beigi

Panel Q&A discussion

Lower Lid Retraction

How to best address medial paralytic lagophthalmos

Midori Osaki

Middle lamellar implant

Ayşe Dolar Bilge

Middle lamellar tendon sling

Salvatore Pacella

Panel Q&A discussion

10.30 - 11.00 Coffee Break

11.00 - 11.45 Lacrimal 3: Debates

Session Chairs: *Ashok Grover, Pallavi Singh*

Monocanalicular intubation in canalicular obstruction and stenosis?

Khaled Abuhaleeqa

Conventional DCR works better than intubation in stenosis

Raghavan Sampath

Discussion

Conventional CDCR

Rong Liu

Minimally invasive CDCR

Suzana Matayoshi

Discussion

Why to operate, botulinum toxin works as well?

Peter Dolman

Jones tube is the way to go

Colin Vize

Panel Q&A discussion

11.45 - 12.30 Lacrimal 4: Debates

Session Chairs: *Saul Rajak, Chris Schulz*

Dacryocystography and cone beam CT dacryocystography; Is this the best way to diagnose NLDO?

Masashi Mimura

Radiologic diagnosis in the lacrimal drainage system; Still an option?

Ulrich Lachmund

Discussion

DCR without silicone intubation

Caiwen Xiao

DCR with silicone intubation

Ben Limbu

Discussion

Sutureless endonasal DCR?

Elin Bohman

Suturing flaps in endonasal DCR?

Nattawut WanumKarng

Panel Q&A discussion

12.30 - 13.30 Lunch

13.30 - 14.15 Orbit 6: Orbital Inflammatory & Vascular Lesions - Debates
Session Chairs: *Peerooz Saeed, Rwituja Thomas Grover*

Lymphatic Malformations

Sclerotherapy; When & How?

Sri Gore

Targetted therapy; When & How?

Catherine Liu

Endovascular intervention; When & How?

Golan Haider

Panel Q&A discussion

IgG4 Management - Debate

Surgery; When & How?

Dion Paridaens

Corticosteroids therapy

Min Joung Lee

Rituximab

Sunny Shen

Panel Q&A discussion

14.15 - 14.23 SLING Sponsored Talk
Update on linsitinib, an oral IGF1-R in development for TED
Raymond Douglas

14.25 - 15.10 E-Poster Oral Session
Moderators: *Stijn van der Meeren, Elaine Chee, Shubhra Goel, Ben Limbu, Ania Buigues, Oksana Petrenko, Yvonne Chung*

MONITOR 1

Lacrimal #1

Moderator: *Elaine Chee*

Lacrimal gland lesions biopsied in a tertiary center in Saudi Arabia: A clinical, radiological, surgical and histological review

Walaa Alturkistany

Lacrimal gland biopsies: Results from a tertiary centre in the UK

Agni Mokka

Office-based lacrimal procedures

Maryanne Romero

Effectiveness of intense regulated pulsed light for the treatment of meibomian gland dysfunction

Shahad Alruwaili

Hook, line & sinker

Viji Rangarajan

Dirofilaria repens human infection case in dacryology

Irina Kornilova

Management of dacryops (recommendations for avoiding complications)

Hind Benaziza

Difficult ophthalmological problems and management in systemic diseases

Neşe Arslan

Management of dupilumab associated ocular surface disease

Aminah Iffah Jawaheer

Assessing the microbiological spectrum of dacryocystitis patients at a tertiary eye hospital: A retrospective study

Rawan Althaqib

MONITOR 2

Eyelid #1: Blepharoplasty/Aesthetics

Moderator: *Shubhra Goel*

How low can you go? Skin thresholds in upper lid blepharoplasty

Sarala Joshi

Long term ocular surface effects and aesthetic results of reconstructive eyelid surgery

Ahmet Alp Bilgiç

PuAWS: A 'Pelin's up and away' variation of brassiere suture as an adjunct to upper blepharoplasty

Sultan Kaya

Short-incision upper eyelid surgery: Less invasion and more possibility

Lin Lu

Scaling excellence in oculofacial surgery: A global perspective on sustainable growth and patient care

Renzo A. Zaldivar

Comparison of radiofrequency versus scalpel incision for upper blepharoplasty wound dehiscence in patients referred to Farabi Hospital between 2021 to 2024

Mansooreh Jamshidian Tehrani

A clinician's insight: Detecting body dysmorphic disorder in adnexal clinic patients

Hae Seung Chung

Postoperative orbital hemorrhage following blepharoplasty: A case report

Fatma Akbaş Kocaoğlu

Xanthelasma-like formation after lower eyelid hyaluronic acid filler injection

İlke Bahçeci Şimşek

MONITOR 3

Eyelid #2- Ptosis

Moderator: *Ben Limbu*

Composite surgical management of periocular changes and lagophthalmos in facial nerve palsy

Kostas Boboridis

The A-to-Z technique: One-stage eyelid reconstruction for lagophthalmos and severe inferior eyelid retraction

Adriana Velasco y Levy

Aesthetic and functional reconstruction of unilateral congenital anophthalmia and ankyloblepharon

Kardelen Uzun

Lower eyelid retraction repair with auricular cartilage autograft versus costal cartilage allograft

Pelin Çeliker

Spindle cell carcinoma of the eyelid: Can it involute?

Krishna Manasvini Sukhvasi

Multiple apocrine hydrocystomas in a patient with prolactinoma

Eda Akgöz

Multiple bilateral periocular hydrocystomas: A manifestation of hyperprolactinaemia

Cornelius Rene

To evaluate the effect of the modified Hughes tarsoconjunctival flap procedure on ocular surface and tear film function

Serap Yıldız

MONITOR 4

Eyelid #3

Moderator: *Ania Buigues*

Effect of upper lid blepharoplasty on corneal high-order aberrations and dry eye

Zeki Baysal

Features of Asian blepharoplasty for partial blepharoptosis

Banu Sultankulova

Long term outcome of blepharoptosis surgery in patients with chronic progressive external ophthalmoplegia

Şeyda Karadeniz Uğurlu

Acquired unilateral ptosis associated with proptosis in a rare case of localized eyelid amyloidosis

Alessandro Rossi

Panitumumab induced ocular toxicity in metastatic colorectal cancer: A case report

Hatice Betül Kaya

Significance of preoperative examination evaluation criteria and their impact on operative incidence in congenital blepharoptosis

Sofia Ivanova

Comparative analysis of ocular surface in CGO's with or without upper eyelid retraction

Suzana Matayoshi

MONITOR 5 Orbit #1 TED

Moderator: *Oksana Petrenko*

Efficacy of subcutaneous tocilizumab in steroid-resistant thyroid eye disease: A case series

Ana Duarte

Effects of teprotumumab on eyelid retraction in thyroid eye disease

Eman Al-Sharif

How long is the uphill slope of Rundle's curve in TED

Ho Shu Fen

Long-term outcomes of steroid-sparing immunosuppression in thyroid eye disease at a tertiary referral centre

Agni Mokka

Changes in orbital MRI findings after administration of teprotumumab for active thyroid eye disease

Masashi Mimura

Varenicline and verbal counseling: Addressing smoking cessation in thyroid eye disease

Nasser Karimi

Decrease in parafoveal deep capillary plexus vessel density and choriocapillaris flow area in inactive Graves' ophthalmopathy: An optical coherence tomography angiography study

Büşra Yılmaz Tuğan

MicroRNA expression profiles in tears of thyroid eye disease patients

Min Joung Lee

MONITOR 6 Orbit #2

Moderator: *Stijn w. van der Meeren*

From orbit to dura: Advanced reconstruction of rare intradiploic epidermoid cyst

İbrahim Edhem Yılmaz

Pleomorphic adenoma of the lacrimal gland in adolescents: Report of two cases

Khalid Khalefa

Nodular lymphocyte predominant Hodgkin lymphoma presenting as unilateral proptosis in a young female

Kate Angelli Lucero

Orbital metastasis of Ewing's sarcoma: A rare presentation

Samira Al Jabri

Mesenchymal chondrosarcoma of the orbit in a young female

Pallavi Singh

Orbital exenteration in advanced tumors with extrabulbar spread

Günay İbrahimzade

Unilateral vision loss due to optic nerve arachnoid cyst in a 40-year-old African male: A case report

Shannon Callaway

Orbital metastasis as the initial indicator of systemic malignancy: A five-year case series

Seema Kashyap

Large and massive tumors of the orbit

Kamalpreet Likhari

Outcomes of optic nerve sheath fenestration from superomedial eyelid crease approach

Amina Malik

MONITOR 7

Orbit #3

Moderator: *Stijn w. van der Meeren*

Secondary orbital implantation in PESS combined with lower fornix prolapse. The relevance of the inferior oblique muscle

Nikolai Iugai, S.N

Formation of conjunctival vaults in anophthalmic syndrome

Gulstan Abilova

Indication, outcomes and positioning accuracy of polyetheretherketone patient-specific implants in orbital surgery

Amir Zamanipoor Najafabadi

Acquired enophthalmos

Sandra Gómez Perera

Recurrent progressive orbital arteriovenous malformation during pregnancy: Challenges in the management

Priya Taufiq Arrachman

Postpartum dural arteriovenous fistulas mimicking orbital inflammation: Report of two cases

Scleral buckle mimicking an orbital mass: An escalation of challenges

Camilla Pagnacco

Orbital cholesterol granuloma: Case report and literature review

Marwah Khamis Alkalbani

New classification of changes in soft and bone tissues of the orbit in patients with anophthalmos

Dilshodkhuja Khodjaev

15.10 - 15.40

Coffee Break

15.40 - 16.10

Eyelid 6: Corneal Neurotization – Short Video Talks with Discussion

Session Chairs: *Ilya Leyngold, Cat Burkat*

Which candidates and when?

Essam Eltoukhy

Tips for getting started & choosing the donor nerve

Andrea Kossler

Implant vs autogenous graft; Can we do this in other parts of the world?

Michael Yen

When can PK be performed?

Jin Li

Panel Q&A discussion

16.10 - 16.25

Eyelid 7: Challenging Cases

Session Chairs: *Ilya Leyngold, Cat Burkat*

Young man with static and ptotic upper eyelid

Pari Shams

Panel Q&A discussion

Management of exposure keratopathy in a case of Crouzon Syndrome: A case report

Samata Sharma

Panel Q&A discussion

Merkel cell carcinoma: Merits and misery of managing this rare malignancy

Tamara Fountain

Panel Q&A discussion

16.25 - 17.10 Oculofacial Trauma & Emergencies

Session Chairs: *Ganga Sundar, Vikram Durairaj*

Debate

Preferred material for correction of enophthalmos: Porous polyethylene

Michael Yoon

Preferred material for correction of enophthalmos: Titanium

Priti Udhay

Preferred material for correction of enophthalmos: Autologous fat graft

Antonio Quintero

Panel Q&A discussion

Panel Discussion: Challenging Cases

Case 1: A challenging case of intraorbital foreign body

Syed Ali Raza Rizvi

Discussion Case-1

Case 2: Healing the burn; Stepwise management of mild to severe chemical ocular trauma

Yunia Irawati

Discussion Case-2

Case 3: Orbital rim and floor reconstruction with bone graft and titanium implant

Tarjani Dave

Discussion Case-3

Case 4: Use of tissue expanders in eyelid trauma

Maracruz Contreras Lizárraga

Discussion Case-4

Closing

APRIL 13th, 2025 | DAY 1

Advanced Techniques for Orbitofacial Rejuvenation Using Injectables and Suspension Devices

Course Directors: *Robert Alan Goldberg, Pelin Kaynak, Jose Raul Montes*

OR & Injections Director: *Altuğ Çetinkaya*

OR & Injections Coordinators: *Ayşe Dolar Bilge, İlke Bahçeci Şimşek, Özgün Melike Gedar*

Faculty: *İlke Bahçeci Şimşek, John Bareno, Kasturi Bhattacharjee, Altuğ Çetinkaya, Volkan Dericioğlu, Ayşe Dolar Bilge, Özgün Melike Gedar, Dan Georgescu, Alice Goh, Robert Alan Goldberg, Pelin Kaynak, Serhat Mangan, Jose Raul Montes, Can Öztürker, Farzad Pakdel, Debraj Shome, Pallavi Singh, Arzu Taşkıran Çömez, Berçin Tarlan, Jose Tovilla, Sandy Zhang-Nunes*

Didactic presentations will be in the morning sessions followed by interventions at the afternoon.

* Didactics are in bold, and Interventions are written in italics.

08.20 - 08.30 Opening

Jose Raul Montes, Pelin Kaynak, Robert Alan Goldberg

08.30 - 08.40 Botulinum toxin A: Advanced concepts and techniques for outstanding results in the periocular area

Can Öztürker

08.40 - 09.00 Deadly sins while injecting fillers and US guided filler applications to avoid complications

Alice Goh

09.00 - 09.10 Enzymatic dissolving of HA fillers

Sandy Zhang-Nunes

09.10 - 09.25 PLLA/Sculptra as a biostimulant agent to improve the transition between the lower eyelid and the midface

Jose Raul Montes

09.25 - 09.40 PRP and bio fillers for skin rejuvenation

Kasturi Bhattacharjee

09:40 - 10:00 Fat and stromal vascular fraction as a rejuvenative agent

Altuğ Çetinkaya

10:00 - 10.15 Basics of thread lifts. Anatomical points. Which thread? Where? Why?

John Bareno

10.15 - 10.25 Q&A

10.25 - 10.55 Coffee Break

- 10.55 - 11.10 Exosomes in rejuvenation: Myth or reality?**
Debraj Shome
- 11.10 - 11.25 Stem cells: How to harvest and cultivate? How do they work?**
Farzad Pakdel
- 11.25 - 11.35 Oculofacial rejunavation via MSC from Wharton's jelly**
İlke Bahçeci Şimsek
- 11.35 - 11.45 Injectable mesotherapy agents: HA, peptides, polymers and minerals & lipolytics**
Dan Georgescu
- 11.45 - 11.55 Non-injectable topical mesotherapy agents**
Pallavi Singh
- 11.55 - 12.00 Harmony and art in periorbital rejuvenation**
Pelin Kaynak
- 12.00 - 13.00 Boxed Lunch**
- 13.00 - 13.45 Fat harvesting, preparation techniques and periorbital applications**
Altuğ Çetinkaya, Ayşe Bilge Dolar
- 13.45 - 14.00 Periorbital fat injections**
Altuğ Çetinkaya, Ayşe Bilge Dolar
- 14.00 - 14.30 PLLA/Sculptra as a biostimulant agent to improve the transition between the lower eyelid and the midface**
Pelin Kaynak, Jose Raul Montes
- 14.30 - 14.50 Injecting the periorbita with HA fillers**
Arzu Taşkırın Çömez, Sandy Zhang-Nunes
- 14.50 - 15.10 Injecting sub brow fat and temple hollows**
İlke Bahçeci Şimşek, Dan Georgescu
- 15.10 - 15.20 Hemifacial spasm: Management of asymmetry with Botulinum toxin injections**
Özgün Melike Gedar, Jose Tovilla
- 15.20 - 15.50 Periorbital rejuvenation with suspension devices HA fillers and Botulinum toxin A**
Pelin Kaynak, Debraj Shome, İlke Bahçeci Şimşek
- 15.50 - 16.20 Practical techniques with threads for optimal results**
Berçin Tarlan, John Bareno
- 16.20 - 16.35 PRP and Bio filler injections for skin rejuvenation**
Volkan Dericioğlu, Kasturi Bhattachargjee
- 16.35 - 16.50 Orbitofacial HA filler injections**
Serhat Mangan, Alice Goh
- 16.50 - 17.00 Injections of mesotherapeutic rejuvenating agents and exosomes**
Can Öztürker, Pallavi Singh
- 17.00 - 17.10 Polyglactin threads: Spider web interventions**
Pelin Kaynak, Robert A. Goldberg
- 17.10 - 17.20 Blepharospasm management with Botulinum toxin A**
Can Öztürker, Farzad Pakdel
- 17.20 - 17.30 Q & A - Closing Remarks**
